## TOWARDS GOLDEN JUBILEE Our March for better cinema will continue

We have achieved one landmark - completed 25 years of holding Annual International Film Festival in Kolkata. International Forum of New Cinema has now become an integral part of Kolkata Film Festival. To night when the curtain comes down, when the audience walks to their home, we think of making the next festival bigger, brighter and of course better.

We began our journey in October 1965 to promote film culture to the masses. Now Cine Central Calcutta is the biggest film society in India. We are committed to present the best of World Cinema to the film lovers of Kolkata.

2014 is not a very distant date. Three years from hence, in October 2014 Cine Central, Calcutta will unveil a series of programmes to commemorate the Golden Jubilee Year. We invite all film loving people to join in our society to make it more stronger platform to disseminate film culture.
